

NCASE MEMBERSHIP

Individuals, groups, associations, corporations and other organizations involved in or with an

interest in aviation and related industries may join NCASE.

By joining the NCASE community, you are supporting aviation education and the importance it holds for today's youth. You are also joining a network of members who share ideas and resources. Three types of membership are available:

Regular Members: Associations, companies, educational organizations, and individuals involved in education, aerospace, and aviation without direct Federal appropriations.

- 1-5 employees \$100
- 6-10 employees \$150
- 11-20 employees \$200
- 21-50 employees \$250
- 51+ employees \$300

Associate Members: \$275.00 - Other companies, corporations, and organizations supporting the goals and objectives of NCASE and wishing to contribute to our work.

Advisory Members: Exempt - Organizations dependent on Federal appropriations or essential Federal grants and thus not permitted to have a financial relationship with a nonprofit organization. Advisory Members are exempt from dues and serve in a non-voting advisory capacity. This is for groups, not for individuals who are members of those groups.

**Membership Application available at:
www.aviationeducation.org**

2017 EVENTS

NCASE outreach, direct to our consumers, educators involved in aerospace education across the nation.

*Space Exploration Educators Conference
Houston, TX*

NCASE members had the opportunity to participate in the first-ever, annual Air & Space Education Pavilion at the largest gathering of science teachers in the world.

*National Science Teachers Association
Los Angeles, CA*

National Coalition for Aviation and Space Education

Est. 1993

MISSION STATEMENT

To promote and support aerospace education and provide a portal to resources and information available from more than sixty organizations.

NCASE is a 501 (c) (3) nonprofit charitable organization. Annual dues, contributions and donations are eligible for tax-deductible.

ABOUT NCASE

The National Coalition for Aviation and Space Education is a membership organization that was formed in 1993 when the founding member groups signed a formal charter and established a partnership with the Federal Aviation Administration (FAA). Together with the FAA, we actively promote aviation and space education while supporting schools' initiatives at the local, state and national levels.

A Cooperative Spirit - The NCASE was formed in a cooperative spirit between the aviation and space industry and the FAA to present a united voice on aviation and space education issues. We work with aviation and space educators, government officials and industry representatives to marshal education resources and use aviation to train America's young people.

We also provide a one-stop clearinghouse for aviation space education materials on our website.

NCASE MEMBER GUIDE AND RESOURCES

The NCASE Guide is an interactive, valuable resource that provides direct links to pages on our member organizations' websites. This is a gateway to the information and resources supporting aviation and space education provided by dozens of agencies, associations, industry groups, and other organizations! This comprehensive list of organizations includes a wealth of resources supporting teachers, program leaders, and students interested in aviation and aerospace education.

RECOGNITION PROGRAMS

The National Coalition for Aviation and Space Education provides two national awards each year.

Dr. Mervin K. Strickler Jr. Aerospace Education Leadership Award

A legend in his own time, Dr. Strickler was considered the "father" of aviation education. The Strickler award recognizes those who share Dr. Strickler's commitment to aerospace education through the demonstration of outstanding accomplishment to the aerospace field through education over a continuous period of time. The Mervin K. Strickler Aerospace Education Leadership Award was established by NCASE in 1995 to distinguish and honor excellence in aerospace education.

Crown Circle Award

The Crown Circle Award is a special award for outstanding educators and education supporters who have shown leadership in their field or in support of aviation education objectives.

YouthWINGS

YouthWINGS provides on-line access to LIVE and Archived courses that provide useful information on a wide variety of aviation topics. These courses contain content to support the teaching and learning of Science, Technology, Engineering, Art & Math topics.

Each course has a link to a content quiz to help demonstrate the transfer of knowledge, and provide a printable Certificate of Accomplishment for the student.

NCASE PUBLICATIONS

Monthly Newsletter: Our monthly newsletters provide a way for you and your organization to share your news with the entire community of aviation and aerospace educators.

AvEd Magazine: In 2017, the State Aviation Journal launched the AvEd Magazine in collaboration with NCASE. This quarterly publication will showcase amazing aviation and aerospace initiatives and programs that are taking place around the globe and capture the men and women hard at work who have a heart for this industry and a zest for introducing new generations to what is possible.
